PROJECTS

Boot Kingdom - *Football Boot Shop*

- Users can give feedback on the dashboard and those will be displayed on the Home page.
- The Stripe payment gateway is implemented in this project so that users get the feel of paying money for the product they have ordered.
- An admin system is implemented. Admins can take any action such as confirming orders, deleting orders, adding new products, deleting products, and also can make someone admin.
- The Image Uploading System is implemented so that products can be uploaded with an image.
